Offering a complete line of waxes and plastic additives

DP-2589 Paraffin Wax

DP-2589 Paraffin Wax is a high melting paraffin wax designed to meet consistent and narrow specification requirements. It is a hard wax with stable color and can be used as a base product or as a blending component. Recommended for PVC Lubricant base wax formulating.

Test	ASTM Test Method	Typical Value
Drop Melt Point (F)	D-3954	166
Oil Content %	D-721	1 max.
Color	D-156	+30
Viscosity @210 (F)cS	D-445	6.5
Odor	D-1833	1

**This product complies with the following F.D.A. regulations:
Sections 178.3710 Indirect food additive use**

Typical values have standard deviation ranges for repeatability and reproducibility. These ranges vary according to the test methods on each property.

PRODUCT WARRANTY, DISCLAIMER AND LIMITATION OF LIABILITY ARE FOUND ON THE MATERIAL SAFETY DATA SHEET.
