

TECHNICAL DATA SHEET

Product Name	Glass Fiber tape	
Description	Backed with PET film, this product is reinforced with strong fiberglass fabric	
Application	Wire&cable binding	
Material	Backing	PET film 0.025mm
	Adhesive	PU adhesive
	Reinforcement	Fiberglass Fabric 50g-8*8 counts/inch
Typical Physical Properties	Surface	No adhesive
	Mass (g/m²)	90±9
	Size: width	5cm, 6cm , etc.(can be customized)
	length	500m, 1000m, etc(can be customized)
	Pad	ID 76mm,OD300mm
	Tensile Strength(N/IN)	≥400
	Elongation(%)	<6
	Color	white
Application Tem.	-5°C(min.) --- 70°C(max.)	
Storage Conditions	Store in a clean, dry place. Temperature of 4-26°C and 40-50% relative humidity are recommended .	
Remarks	1. The test is in the environment of temperature 23°C±2,humidity of 50+5%; data may be changed under different testing environment. 2. Jumbo rolls and special sizes are also available, pls check in advance .
